

Sharing: Can you share your toys between your cuddly toys? Or have a picnic and share out the food.

Feelings: Say something kind to someone in your family.

How far can you jump?
How far can you throw a ball?
Count the distance in steps.

Find items in your house to make a tall beanstalk. Do they balance?

Can you retell your favourite story to your family? You could use a book or tell the story from memory.

Can you use string to measure things around your house? Can you make a chart?

What sounds can you spot on the signs when you go for a walk?

Plant your bean and watch it grow. What do you notice?

If you do any home learning please put it on Tapestry for us to see.
