

**Home learning**  
**Reception term 5 2024**  
**Topic: Real Heroes**  
**Text: Super Duck**

Remember to bring in any home learning or put photos on Dojo.

You could make a hero costume. It could have a cape, mask, hat or anything else you can think of. Your costume could be for a super hero or a real hero like a Police costume.

You could create a new hero. Draw a picture of your hero, either a real hero or a super hero. What would your hero do to help people or what would their super power be?

You could tell your own helicopter story to a grown up at home. Ask your grown up to write your story as you tell them (no longer than an a5 piece of paper), then bring it in for us to act out. If you want an extra challenge you could write your own helicopter story.

You could play one of these maths games on the computer:

[www.ictgames.co.uk](http://www.ictgames.co.uk)

mushroom shuffle (ordering numbers)

counting caterpillar (ordering numbers)

[www.topmarks.co.uk](http://www.topmarks.co.uk)

coconut odd or even (odds and evens)

Can you use different objects from your home (such as Lego, pasta, blocks) to show double numbers, you could choose a way to record your double such as drawing a picture or writing a number sentence (e.g.  $3+3=6$ ). Try doubles up to double 5, if you want an extra challenge you could explore doubles up to double 10.

Real heroes and superheroes need to eat lots of healthy foods to give them energy. You could make a healthy meal for a superhero.

Draw a picture of the bean plant you brought home last term. You could measure your bean to see how much it has grown.
